About Us!

RiverHacks is ACC's new hybrid 24-hour hackathon, focused on providing students from various different backgrounds with innovative tools, environments, and opportunities to create technology. We plan to host 100+ passionate students and help them develop their technical and coding skills in an inclusive platform.

Why Sponsor?

Hackathons are a great way to increase company exposure and attract motivated students to hire. By presenting workshops and hosting API demos, your sponsorship will help make RiverHacks an inspiring event for the future generation of software engineers. You'll have the opportunity to access attendee resumes, make a lasting impression through mentorship, and provide your own prizes and swag. No matter how much you're willing to contribute, you'll be an essential part of making this the best event possible.

Sponsor Levels

	Stream $500	River $1000	Waterfall $2000	Delta $2500+
